### Unity Collection

#### RT6

**Description**

Unifying the integration of AV, IT, and Power — all in the same box

The Unity Collection of Table Boxes are available in various shapes to match your needs and designs.

Select square or rectangular boxes, dual rectangular boxes for those larger tables, or a clamp on table unit. A full line of insert brackets and cable retractors are available. The internal brackets are designed to hold AC, USB Chargers, Cable Pulls, Cable Retractors, snap-in Keystone Connectors, and FSR’s full line of IPS (Intelligent Plate Solutions).

The Unity Collection covers are available in various finishes to suit your decor. (See ordering information to determine available color by model number.)

The S3/S4/R2 models ship with one T6-LB-UN universal bracket. The RD4 model ships with two T6-LB-UN universal brackets. Each bracket allows mounting of four IPS, six cables (in a “pull” configuration) or can be used to simply block a section of the table box.

**Applications**

- Desks
- Lecterns
- Lab Tables
- Huddle Areas
- Boardroom Tables
- Control Consoles
- Classrooms
- Multipurpose Rooms

**Features**

- Choice of shapes and form factors
- Large capacity
- Low profile
- Uses the full FSR T6 large connector, plate and charger solutions
- Hideaway Doors
- Boxes can be used with FSR’s HuddleVU Collaboration systems with the addition of RT6-HLB-4MOM brackets which provide four momentary switches and LEDs.
- Provided with one or more T6-LB-UN Brackets dependent on RT6 model

**Retractor Ready**

FSR’s TBRT Cable Retractors balance form and function, making tangle-free cable management an easy task. This cable management system offers convenience as well as cable storage and protection, hiding unsightly cables when not in use. The cables can be quickly deployed by the user and extend to any length, up to four feet. A simple pull and release of the extended cable is all that is needed to return the cable to the protective reel. No button release is required.

The TBRT assemblies can be ordered in HDMI (4 color coded cables available for integration with HuddleVU systems), HD-15 (VGA) with fixed 1/8” stereo audio jack, CAT-6, 1/8” Stereo Audio, Display Port ++, Mini Display Port and USB. All cables are of the highest quality and are tested for longevity. Retractor life is greater than 8,000 cycles.

* For Round Box Solutions see (LIT1291) T6 Table Box spec sheet.

---

**This symbol indicates the device is Retractor Ready and accepts the number of retractors shown in the circle.**
The **RT6-S3 Table Box** is a square box with spacing for any three T6 series large brackets mounted vertically to suit your individual applications. It can also hold up to 8 TBRT cable retractors and still have space for AC and USB chargers as well.

Provided with one T6-LB-UN Universal Bracket
Covers are available in black anodized (−ABK) or clear anodized (−ALM) finishes

The **RT6-S4 Table Box** is a square box with spacing for any four T6 series large brackets mounted vertically. It can also hold up to 8 TBRT cable retractors and still have space for AC and USB chargers.

Provided with one T6-LB-UN Universal Bracket
Covers are available in black anodized (−ABK) or clear anodized (−ALM) finishes
**RT6-R2**

The **RT6-R2 Table Box** is a rectangular box with T6 series large brackets mounted horizontally to suit your individual applications. It can also be configured to hold 4 or 8 TBRT cable retractors.

---

**RT6-RD4**

The **RT6-RD4 Table Box** is a rectangular box with spacing for any four T6 series large brackets mounted horizontally facing opposite sides of the box. Individual covers for each side handle your individual applications. It can also be configured to hold up to 16 TBRT cable retractors or 8 retractors to still have space for AC and USB chargers as well.
The **RT6-CL2** is a table edge version of the RT6-R2 table box. It incorporates a tool-less, quick-use clamp to attach to any table or counter edge (with thicknesses ranging from 5/8” to 1⅝”). The RT6-CL2 has spacing for any two T6 series large brackets mounted horizontally next to each other to suit your individual applications. It can hold 8 retractors (use RT6-R-LB-RTMKT Mounting Kits), or be configured to hold 4 TBRT cable retractors and still have space for AC and USB chargers as well.

**RT6 Bracket Assemblies**

The **T6-LB-xxxxx** series of inserts (ordered separately) can be used in both the T6 and the RT6 Series boxes and are now offered with 3 AC connections, or 2 AC and 2 USB chargers, or 1 AC and 4 USB chargers.

---

### AC Outlet and Charger Ratings:

**Input Rating:** 125 VAC 15A 60Hz

**Outlet Output Rating:** 15 Amps maximum total current draw, each outlet is also individually rated for 15 Amps

**USB Charger Output Rating:**
- T6-LB-AC2CH: 2 x 12 Watt
- T6-LB-AC1CH: 2 x 10 Watt (upper USB ports), 2 x 5 Watt (lower USB ports)

---

The **RT6-HLB-4MOM** bracket provides 4 lighted momentary switches so these boxes can be used to activate control systems or can be integrated with FSR’s HuddleVU line of collaboration solutions. A half blank is provided with each insert.

**T6-LB-UN** (provided with each RT6)

Allows mounting of four IPS inserts or six cables. Can also be used to block off a section.
